SUPERIOR GLAZED STONEWARE DRAIN
PIPES, invented and manufactured by
WILLIAM NORTHEN, UNION POTTERY, No. 14, VAUXHALL-WALK, LAMBETH.

NORTHEN begs to inform surveyors, contractors, builders, water companies, and others, that he has established a depôt for the sale of his newly invented GLAZED STONEWARE DRAIN PIPES, JUNCTIONS, BENDS, ELBOWS, SYPHON-TRAPS, &c. &c. Amongst the many advantages of pipes made by this machinery over all others may be mentioned, that it insures perfect uniformity in form and size, both of pipes and sockets, the close fitting of a different and better construction than any others now in use; and the pipes and sockets being made in one process are secure from separation.
W. N. invites particular attention to the superior quality of the clays used in his manufacture, which is equal to glass, and non-jarring stoneware in the double proportion.
